- Pre-Record / Post-Record
- Wi-Fi / GPS / 4G
- GPS Location Playback
- Speed and Sensor Triggers
- AES Encryption

Our Body Cameras are CCI Certified. “CJIS Certificate of Integration”

Each WOLFCOM Camera has been assigned a CCI Number by CJIS Database Intelligent Design Solutions.

What is a CCI number?

A CCI number (CJIS Certificate of Integration) is issued to companies whose body cameras and In-Car video systems integrate seamlessly to CJIS Compliant Evidence Management Software and have been screened to be **Free of Malware and Viruses**.

- | | |
|-----------------------------------|---------------|
| • Vision Body Camera | CCI #W0230182 |
| • Halo Body Camera | CCI #I0219192 |
| • Commander Body Camera | CCI #W0911184 |
| • 3 rd Eye Body Camera | CCI #W0230181 |
| • Mini-DVR In-Car | CCI #W0401197 |

You can check our CCI Status at www.PoliceBodyCameras.com

WOLFCOM ECO System

How our System Works.

Everything is Secure and Automatic

WOLFCOM Cameras

Officers Use our Body Cameras to Record throughout their day.

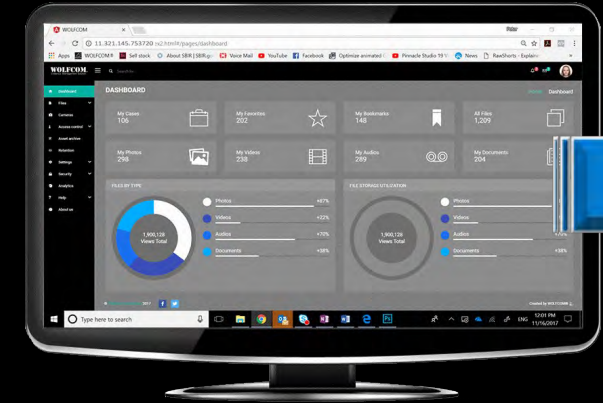

Classification / Notation Apps

From within their Vehicles or Mobile App, Officers can Playback and Review Recorded files. They can Tag & Classify each Video and enter Notations. This way all their work is completed in the field instead of the office.

Smart Docking Station

At the end of their shift, Officers place the cameras into the docking station. Files are then automatically uploaded Into WEMS. A status bar displays the upload status of each camera. When Transfer is complete, the files on the camera are deleted and the docking station proceeds to charge the cameras for the next days' use.

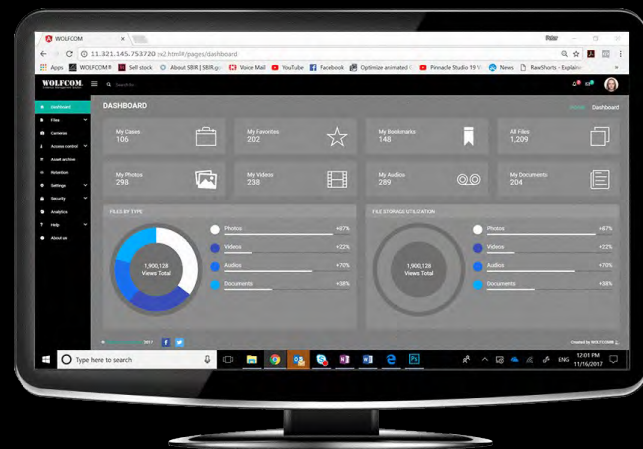

WEMS

All files are uploaded into the officer's evidence folders and are then Encrypted using Sha-256 IACP Standards.

You can choose to store your files in the Cloud or On-Premises.

After files from the cameras are uploaded and managed through WEMS, they are then stored in either the Cloud or an On-Premises Server.

Cloud Storage

On-Prem Storage

Advantages of Cloud Storage

- Headache free. No need for IT staff
- We'll take care of everything
- Access WEMS from anywhere in the world
- Easily Share Files with District Attorney
- All files are automatically backed up
- Access WEMS on Your Smart Phone
- Upload Files from your Phone
- Pool your storage together
- No Overages

Advantages of On-Premises Storage

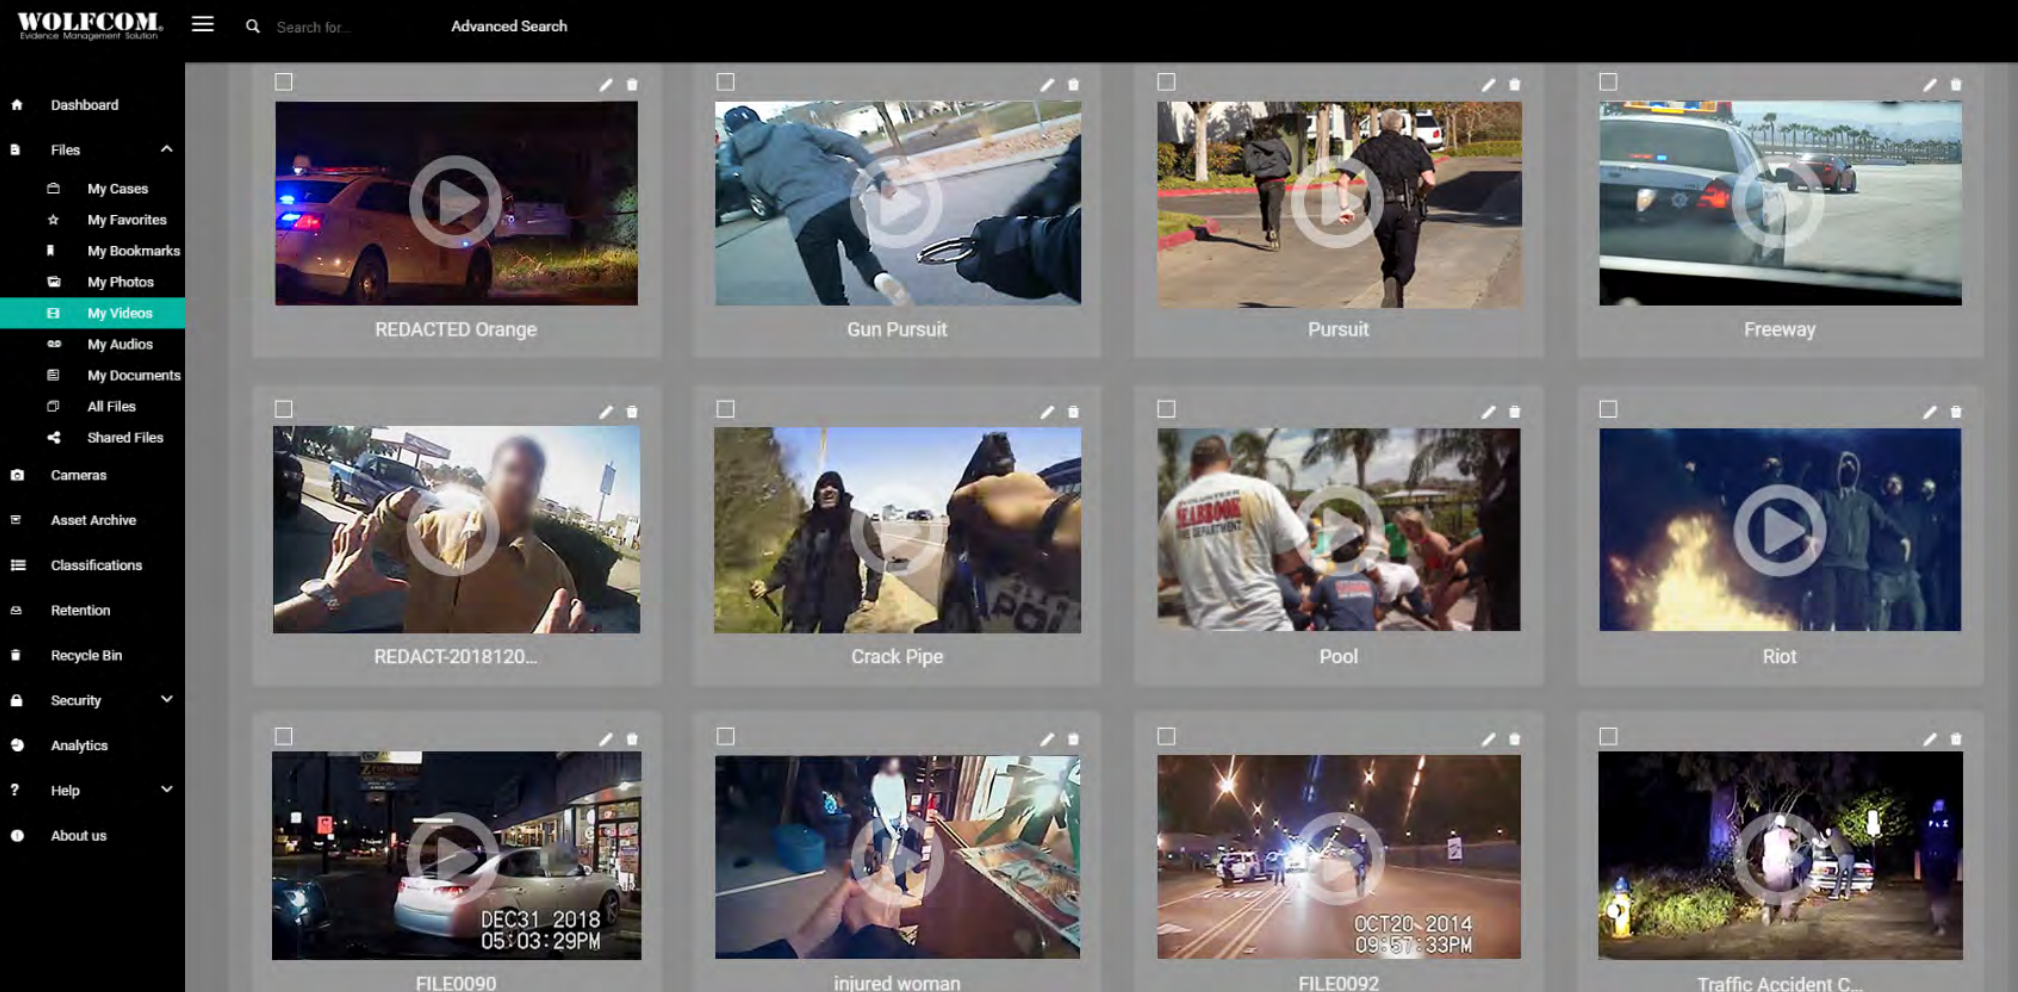

- You own the system
- No Monthly Storage Fees
- Immediate Access to your files.
- Access WEMS from any PC on your network
- Easily Share Files with Anyone on your VPN
- Free Updates & Maintenance
- Free Technical Support

ASR (Automatic Smart Redaction) Video and Audio Redaction Powered by AI (Artificial Intelligence)

WEMS also comes with (optional) Automatic Smart Video Redaction. ASR can identify and redact faces automatically.

Powered by Artificial Intelligence, ASR automatically detects all faces in the video and, with the click of a button, blurs all of them out in a matter of seconds. Easily redact license plates, private information, objects, and audio.

WEMS On-Premises Storage Solution

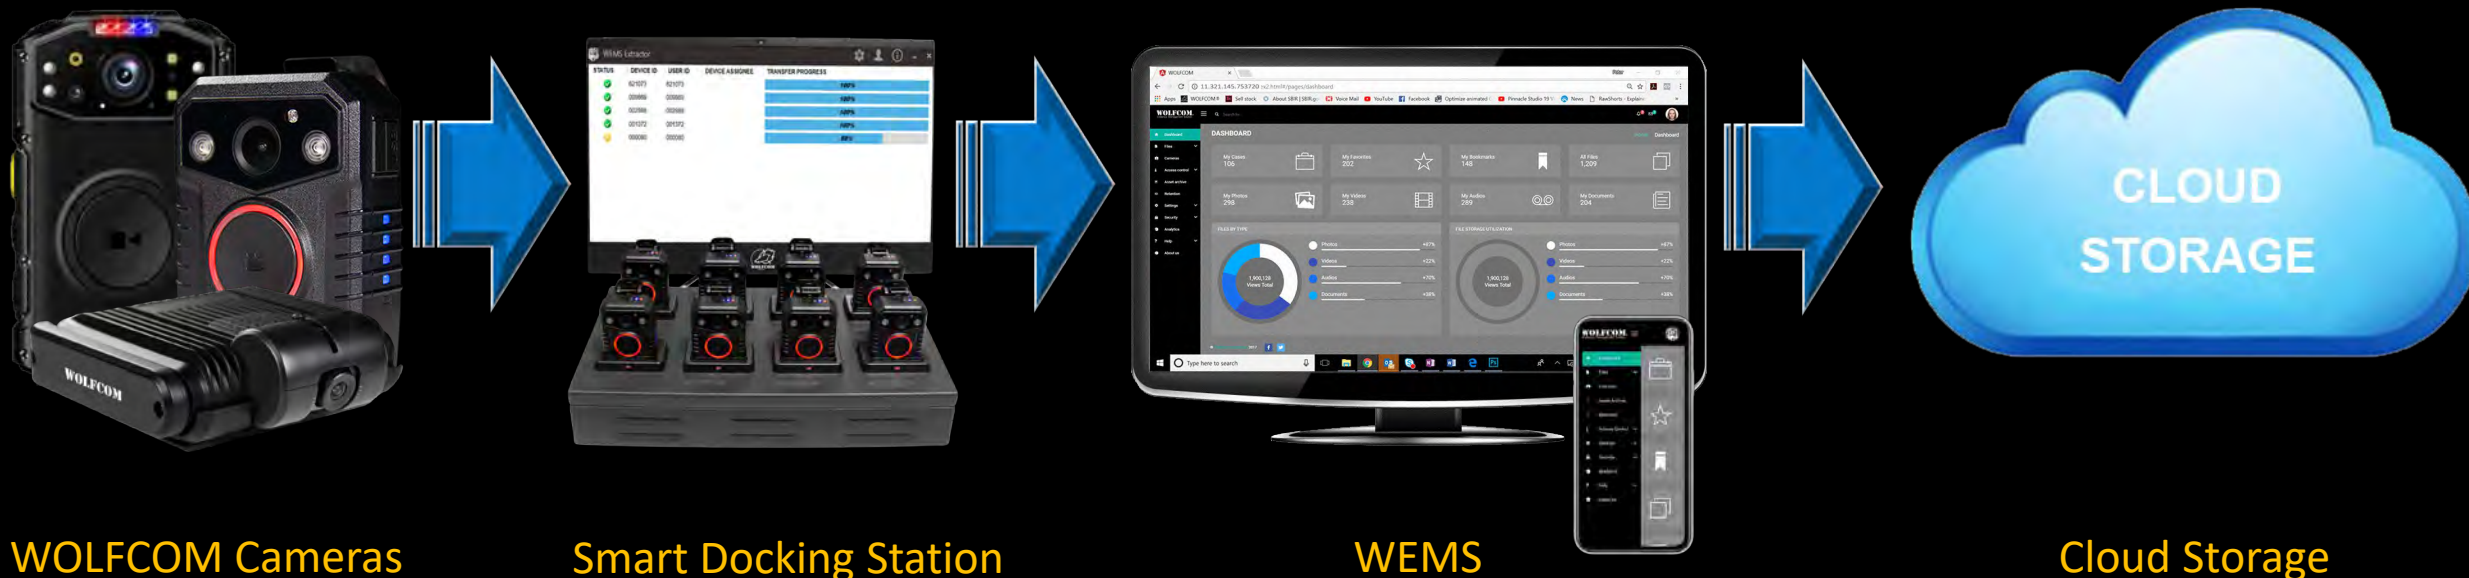

At www.WolfcomCloud.com

Install on Your Own Computer

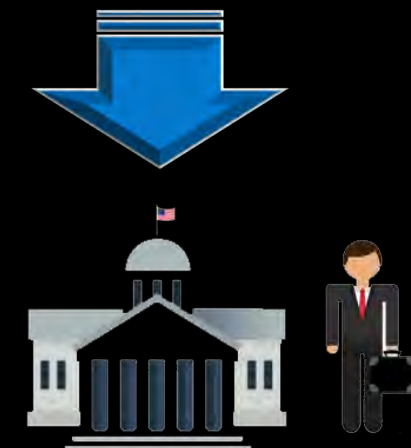

Cloud Storage is Simple and Convenient.

WOLFCOM®

With our Cloud Storage, we let your officers pool their storage together. Plus, you never pay Overages. We alert you when you've reached 85% of your storage allotment allowing you to fine tune your Retention Policies.

Easily Share Files with the District Attorney

See our Cloud Pricing [here](#)

How We Sell Our Cloud Storage Plans

Our CJIS Compliant Cloud Storage is available for Law Enforcement & Government Agencies that need a simple and secure method to upload and store body camera video footage as well as other digital assets. Our servers are 100% secure and abide by the [Criminal Justice Information Services](#) requirements. Save time, resources, and space. Let us worry about your stored digital files so you don't have to.

No overage charges - No hidden fees - You control your cost Set your own storage capacity

No Overages: Our system will alert you when your storage is at 85% capacity. That way you can adjust your Retention Policies to custom fit your agency. It's like having your own private server in the cloud. You "Set & Control" your usage and your cost. Your bill will never be more than what you expect it to be.

Pool your storage capacity together: All of your officers can pool together their storage capacity. For example, if you purchase our Pro Package (600 GB per officer) for 10 officers, your officers can pool their allotted storage together and share 6000 GB (6TB) of storage. This method is extremely beneficial if an officer takes sick leave. His/her cloud storage allotment will never go to waste!

Add storage as your needs grow: You can add additional storage as your needs grow. Need to add another Terrabyte of storage? No Problem. Each additional Terrabyte of storage is just \$720 a year. Best of all, your officers will be able to share and pool all of your storage capacity together!

		
Basic \$325/Year	Pro \$540/Year	Unlimited \$900/Year
✓ 300GB per officer ✓ No contract ✓ No overages ✓ Unlimited users ✓ Redaction ✓ Retention Policies ✓ Mobile access ✓ MDT software ✓ Audit Trails ✓ Roles & permissions ✓ Multi-cam playback ✓ Analytics	✓ 600GB per officer ✓ No contract ✓ No overages ✓ Unlimited users ✓ Redaction ✓ Retention Policies ✓ Mobile access ✓ MDT software ✓ Audit Trails ✓ Roles & permissions ✓ Multi-cam playback ✓ Analytics	✓ Unlimited storage* ✓ 5-year contract ✓ No overages ✓ Unlimited users ✓ Redaction ✓ Retention Policies ✓ Mobile access ✓ MDT software ✓ Audit Trails ✓ Roles & permissions ✓ Multi-cam playback ✓ Analytics ✓ 2 FREE body cameras**

* Based on Qualifying Retention Policies

** First camera is issued in the 1st year and second camera is issued 2.5 years into the contract

Commander Body Camera

[Watch Presentation Video](#)

The **Commander by WOLFCOM®** is a Smart Android Body Camera System designed to work with **COPS (Commander Online Platform System)**. Made specifically for Law Enforcement, Military, and Commercial Applications, Commander takes body camera technology to the next level by offering IOT connectivity through 4G/LTE, WiFi, Bluetooth, NFC, and GPS providing multiple options, such as Audio/Video Recording, SOS Emergency Connect, Wireless Uploads, GPS Real-time Location Tracking, Live Streaming and POC PTT (Push To Talk) communications by 4G/LTE Cellular. Later add-ons will include Facial Recognition power by Artificial Intelligence.

Commander is a Multi-Functional Multi-Purpose Smart Device

WOLFCOM®

15 Hour Battery Life
Waterproof IP68 Rating

4G/LTE

SOS Life Alert Feature!

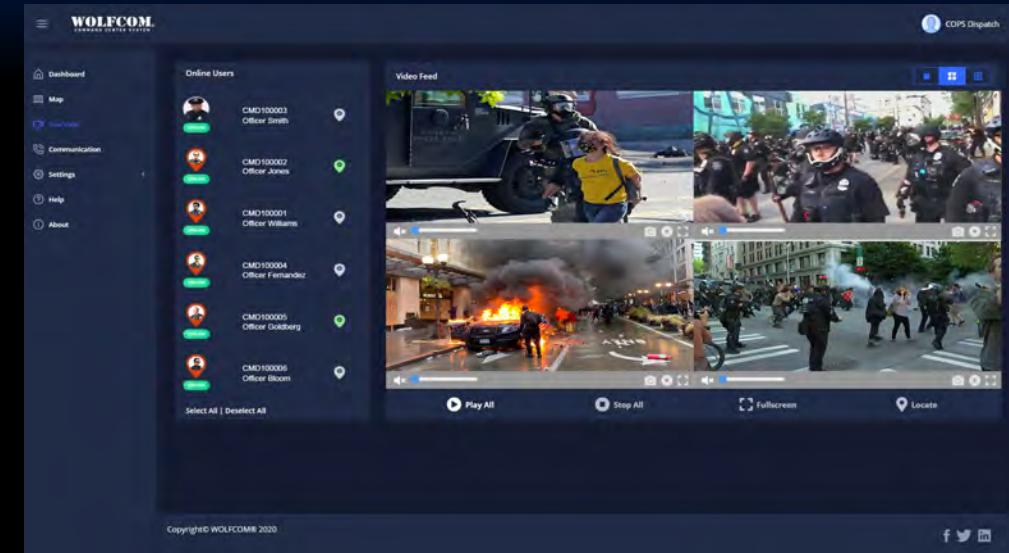

COPS Commander Online Platform System

Livestream-Record-Communicate-Track

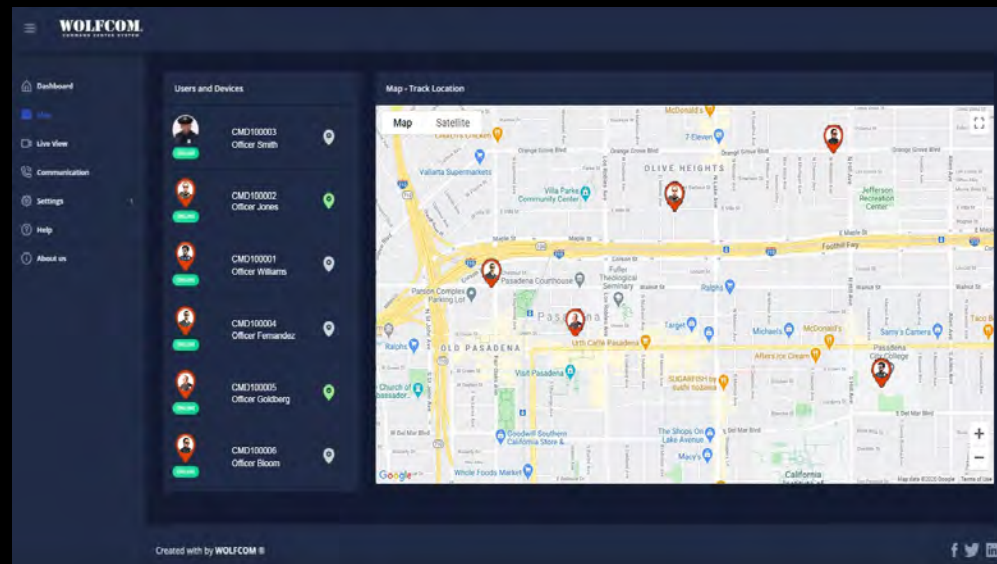

Watch live video of any Commander camera when your officers are out in the field. With our “**SOS Connect**” Live Stream connect feature; Officers can relay live video footage including their GPS location to the station in the event of an emergency. The GPS location of each WOLFCOM® Commander Body camera can be tracked in real time on a map. Using our Commander Remote View Software, one camera or a fleet of cameras can be detected at any time. Communicate with each officer or a group of Officers with the PTT (Push To Talk) Button.

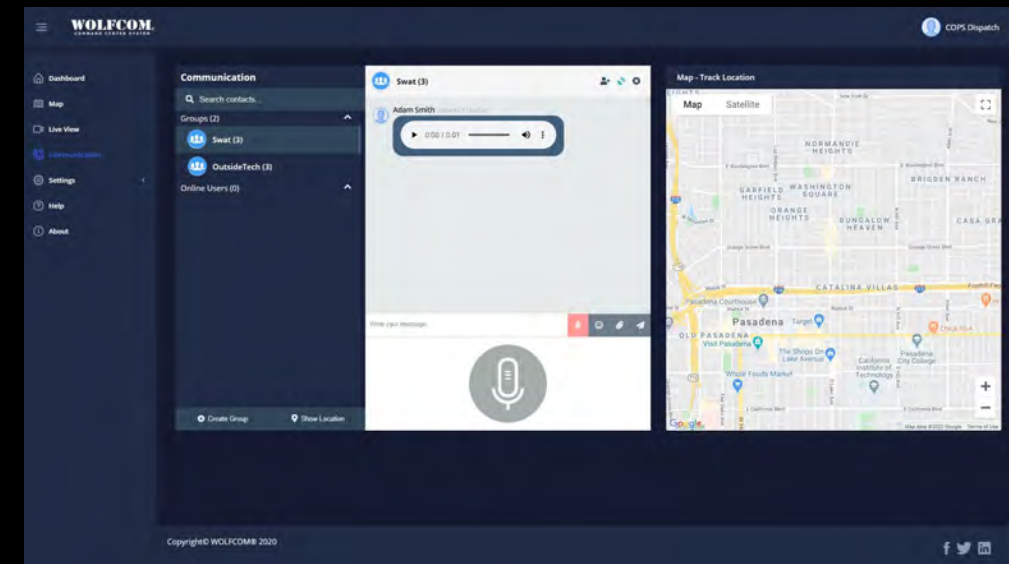

- See Live Video and GPS Coordinates of every Officer.
- PTT (Push To Talk) Voice communication between body cameras.
- Send SMS Text Message from camera to camera.
- Emergency SOS Alert to Dispatch with GPS and Video.
- Record Streaming Video to PC.

Live Stream up to 9 cameras simultaneously

Track the Location of all your Officers in Real-Time

Communicate via Push to Talk across different groups

COPS

Wi-Fi 4G/LTE GPS

Body Camera

WOLFCOM COMMAND CENTER

Manage-Monitor-Command-Control

SOS Button

PTT Button

Once Touch Record

WOLFCOM®

Pressing SOS Button will send Live Video, Audio and GPS Coordinates to Dispatch

- Medics on a battlefield treating a severe injury can press an SOS button on the camera and send live video footage of the injury to doctors at base who can then assess the injury and provide life-saving instructions.
- Officers in a Life or Death situation can concentrate on staying alive. One push of the button will send video, audio, and GPS Location to Dispatch.

Facial Recognition

With Facial Recognition technology, warfighters will have a body camera that can analyze the face of everyone they encounter and provide an alert to the user as well as the Command center if there is a match. Our solution provides the user with a host of abilities that can help save lives, make better and faster decisions, and provide necessary information that will allow decision-makers to make critical decisions if a mission goes awry.

Commander Notation System

Our (CNS) Commander Notation System allow Officers to playback and review video according to their rights and permissions. Officers can tag, classify, and enter both voice and text notations to videos and photos taken with Commander. When the Commander body camera is docked at the end of a shift, the classifications and notations are synced with WEMS.

Agencies can save thousands of dollars annually in overtime pay by having officers do the work on the field instead of later at the station.

- Data can be synced to WEMS Cloud
- Data can be synced to WEMS On-Premises
- Data can be synced over VPN

Tag, Classify, Notate, Sync

Commander will automatically start recording when an Officer's weapon is unholstered.

Works with both a Handgun or Electrical Weapon to automatically trigger the Commander via Bluetooth to activate recording when an Officer draws his weapon.

Our Road Map for the Future
