About YF

YF PROTECTOR is the leading manufacturer for the bullet proof & anti riot equipment for over 22 years, and located near SHANGHAI with 23000 m2 production area. Our factory is certified by China government as the Police & Military manufacturing base.

YF strats the all the production from raw material, we have partnered with the best Aramid and UHMW PE suppliers and maunfacturing with all kinds of auto, semi-auto machines, mature production process strict control of QC. YF produce full range of high quality personal bullet proof gear such as bulletproof helmets, plates, vests, shields as well as anti riot equipment including anti riot suits, helmets, batons etc. We passed the ISO 9001: 2008 and got over 200 CE certificates from Ricotest, Satra and TUV, NIJ certificates from H.P.White and NTS, SGS certificates, CNAS certificates, and various patent certificates, also the bulletproof products can be tested in the nearby shooting range.

YF PROTECTOR has the qualification to apply the Military Export License for customers directly, constistly cooperating with the Police force, army, enforcement, interi or ministry department for more than 100 countries.

1999-2003

- Founded Original Trade Company
- Created YF Brand for Motorcycle Armor

2005-2006

- Get First CE CERTIFICATE of EN1621-1:1997
- Get HONGKONG APLF BEST DESIGN Award

2008-2011

- Founded Own Factory with 23800sqm
- Get ISO 9001 & BSCI Approved

2012-2023

- Expanded The Production Line For The Bullet Proof And Anti Riot Equipment
- NEVER STOP TO BE THE BEST IN THE WORLD

RAW MATERIALS INSPECTION

• Start with selected raw materials, each process.

INJECTION WORKSHOP

- Brand new materials.
No recycled materials.

UHMWPE FABRIC

Model number: YFH1616N	
Product structure	4 layers 0°/90° orthogonal
Density	160±5 g/m²
Width	1.6 m
Length	100 m
Application	Bullet proof vest

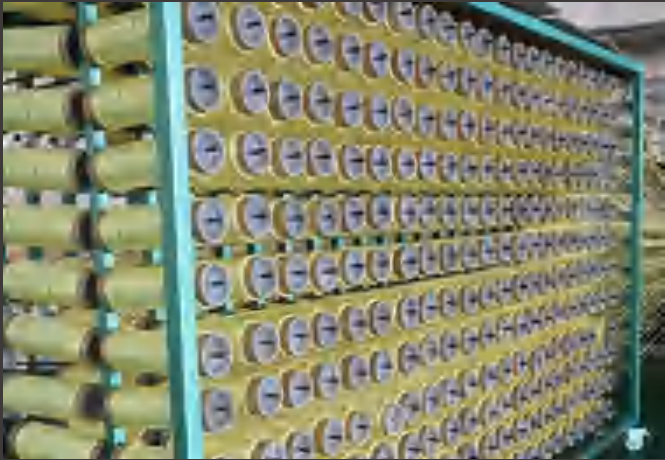

Model number: YFH2616P	
Product structure	4 layers 0°/90° orthogonal
Density	260±5 g/m²
Width	1.6 m
Length	100 m
Application	Bullet proof helmet / Bullet proof plate/ Hard armor for vehicle

ARAMID FABRIC

Model number: YAN1912T1	
Product structure	2 layers 0°/90° orthogonal
Fiber	Twaron 2020 2200dtex
Density	195±5 g/m²
Width	160 m
Length	100 m
the BFS less then 40MM after test the .44 mag	30 layers

HELMET PRODUCTION LINE

• high-performance protection helmet use multi-layer aramid fiber,which is suitable for Police,national guard, soldier,military and security personnel.
